VOLUNTEER EXPERIENCE

Hazel McCallion Central Library, Mississauga — TAG (Teen Advisory Group) Member

JUNE 2024 - JUNE 2025 & FEBRUARY 2026 - PRESENT (Total Hours - 30+)

Helped in hosting events for teens on various fests and educational dates.

Cooksville Library, Mississauga — TAG (Teen Advisory Group) Member

NOVEMBER 2023 - NOVEMBER 2024 (Total Hours - 18)

EDUCATION

Father Michael Goetz SSC School, Mississauga — OSSD

SEPTEMBER 2023 - PRESENT

[EXPECTED GRADUATION: JUNE 2027]

Clubs:

- Goetz ICT Engineering SHSM (MEMBER)
- Goetz ROBOTICS (Team Member + Servo Specialist)
- Goetz STUDENT COUNCIL (Minister of Diversity)
- Goetz ASIAN HERITAGE CLUB (Secretary + Student Council Rep)
- Goetz STEM CLUB 2025-2026 (Member)
- Goetz CODING CLUB (Member)
- Goetz CHESS CLUB (Member)
- Goetz MATH CLUB (Member)

Competitions:

- DPCDSB Game Development Contest - 2026
- Skills Ontario 2026-2027 (Bronze Medalist)
- Waterloo Computer Science CCC Contest 2026 - Junior
- University of Guelph BattleSTEM Contest 2025
- ROPSSAA Badminton Competition 2024 - 25
- ROPSSAA Badminton Competition 2023 - 24

SKILLS & ABILITIES

- Prioritizes daily tasks by having set goals and schedules with proper time management.
- Displays an enthusiastic, interesting, positive attitude.
- Able to easily adapt to fast paced working environments and displays flexibility.
- Demonstrates excellent team work while achieving specific goals.

AWARDS

Goetz Club - Grade 9
(90%+ average)

Goetz Club - Grade 10
(90%+ average)

Goetz Badminton MVP
ROPSSAA Semi - Finalist
(Badminton Varsity
Grade 9-12)

TECHNICAL SKILLS

- Python
- HTML/CSS
- CAD Software - OnShape
- Adobe Photoshop/Illustrator
- Arduino
- Visual Studio Code
- TinkerCAD

PROJECTS/ACCOMPLISHMENTS

Robotic Arm with Servo Claw — *Skills Ontario*

- Designed and built a functional robotic arm capable of picking up and transferring objects
- Integrated servo motors and motor controllers for controlled movement
- Created and refined 3D-printed components using CAD software
- Tested and improved design through iterative problem-solving

Line-Following Robot (C++) — *Grade 10 CPT*

- Designed and programmed an autonomous robot to follow a marked path using sensor input
- Wrote control logic in C++ to adjust motor speed and direction based on real-time feedback
- Tested and debugged code to improve accuracy and response time
- Applied problem-solving skills to optimize movement efficiency

Robotic Arm with Finger-Splitter Claw — *Grade 10 Project*

- Built a functional robotic arm
- Designed a claw mechanism using a finger-splitter system for controlled object handling
- Programmed motor and servo movements in C++
- Integrated mechanical design with coding logic to ensure smooth and precise operation
- Improved stability and performance through testing and iteration

HOBBIES & INTEREST

- Designing/Art
- Listening to Music
- Building & Creating New Things
- Playing Outdoors & Indoors

CERTIFICATES

- WHMIS Certificate
- Python Crash Course (Coursera 2 months)
- Ontario Secondary School Diploma (OSSD)
